Easy to Use

Cloud-based video conferencing tool with powerful audio, video and collaboration features

Affordable

Most affordance and straightforward pricing

Reliable

Engineered & optimized to work reliably across desktops, phones, mobile devices and conference room systems

Why DYXnet

We are Zoom's first official reseller dedicated to the Hong Kong market then expanding to Taiwan. We specialize in providing enterprise network solutions including MPLS, SD-WAN and Internet access as well as unified communication solutions, and our proven capability for network optimization supports our customers with quality video conferencing. Our professional team has provided consultation, training and support services in a number of large-scale online conferences, trainings and webinars for government, industry associations, listed companies, enterprises and universities. In addition, we have set up the Zoom Experience Rooms in our Hong Kong office to further deliver our customers a superior meeting experience.
